DETAILED ACTION

Allowable Subject Matter

Claims 1 and 3 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 recites:

The guide section guiding the sub chassis relative to the main chassis by the projection guide section and the guide groove being engaged with each other.

This limitation, in combination with the limitations of the other claims are neither anticipated, nor rendered obvious by any prior art of record.

The closest reference, Fujimori et al (Japanese Patent Number 63214956), discloses a projection guide to lock the sub chassis on the main chassis, but fails to specifically disclose where the projection guide section and the guide groove are engaged with each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
